

Course Title	TEXTILES IN ART AND DESIGN				
Course Code	ETADS				
Course Type	Elective				
Level	Bachelor				
Year / Semester	5th, 6th, 7th or 8th semester				
Teacher's Name	Mariandrie Chrysostomou				
ECTS	6	Lectures / week	1	Laboratories / week	2
Course Purpose and Objectives	The purpose of the course is to understand the role of textiles in art and design.				
Learning Outcomes	<p>The students will be able to :</p> <ul style="list-style-type: none"> -demonstrate an inquisitive exploration of a range of approaches to textiles. -explore materials, themes and imagery associated with textiles through practical experimentation -communicate an increasingly individual approach to drawing, research, and idea development centered around the discipline of textiles. 				
Prerequisites	-	Required	-		
Course Content	The course develops technical competences in the practice of textile design applied to a range of specific contexts. The course encourages students to expand their practical and technical knowledge of the discipline and associated techniques, applying this understanding to the suite of design projects.				
Teaching Methodology	Through selected readings, lectures, student presentations and workshops, and guest speakers (textile designers), students will be familiar with the wide range of applications of textiles in the design process and implement the obtained knowledge to their own projects.
