## COURSE DESCRIPTION

### Aims & Objectives

This webinar aims to provide participants with enhanced knowledge and gain a deeper understanding of IP and the attractive IP Box regime, combined with a practical application of how to protect and apply IP rights. This course will provide you with an understanding of how IP is used in today's digital world, the types of IP, how the use of different IP categories are prone to infringement and how individuals and businesses can enforce such rights against unauthorised use.

### Learning Outcomes

#### You will learn about:

The different types of intellectual property (IP) and the related tax implications, particularly the IP Box regime. This regime, prevalent in Cyprus, offers preferential tax treatment for income derived from qualifying IP assets. The seminar aims to provide participants with a comprehensive understanding of IP, the IP Box regime, the benefits deriving from IP protection, how they intersect with tax law and develop strategies for protecting and maximising brands with a comprehensive trademark strategy.

•**Gain Knowledge:** Learn about different types of IP, IP laws, and best practices for managing IP.

•**Improve Understanding:** Develop a deeper understanding of the legal framework and economic implications of IP.

•**Network with Experts:** Connect with IP professionals, lawyers, and other experts in the field.

•**Stay Updated:** Stay informed about the latest developments in IP law and practice.

•**Enhance Business Strategy:** Gain insights into how to use IP to drive innovation and growth.

## TRAINING OUTLINE
